“Alternative Taiko Unit Garyu” is a percussion and performance group Japan. Garyu fuses wadaiko – traditional Japanese drums – with contemporary Western drums, to create a new style of music that moves beyond conventional genres. The Japanese characters for Garyu represents 我 “self” and 龍 “dragon.” Like a dragon trying to fly to the heavens, the members of Garyu work constantly to realize their own style of music. See more information about their performance at https://garyu.bz/about_english/. Also see their YouTube videos at <https://youtu.be/K5v1vdwig-k>.
